

POSTDOCTORAL POSITION IN SYNTHETIC CHEMISTRY

Professor Derrick Clive's Lab, Department of Chemistry

A MITACS postdoctoral fellow position (www.mitacs.ca) is available to work on synthesis of small molecule standards for analytical applications. During the fellowship of up to 2 years, the PDF will collaborate with researchers at Nova Medical Testing Inc. (NovaMT) located at the Edmonton Research Park. NovaMT focuses on developing advanced analytical tools for medical testing.

Specific Qualifications:

- PhD in Organic Synthesis within the last 0-4 years or extensive experience in Organic Synthesis
- Strong publication record in organic synthesis
- Competent communication skills
- Ability to work within a team environment with a very strong interest in interdisciplinary research

To Apply:

Interested candidates should send their applications including CV and three names of referees to alexzh105@gmail.com

Closing date:

Position will remain open until filled.

We thank all applicants for their interest; however, only those individuals selected for an interview will be contacted.

The University of Alberta offers appointments on the basis of merit. We are committed to the principle of equity in employment. We welcome diversity and encourage applications from all qualified women and men, including persons with disabilities, members of visible minorities and Aboriginal persons.
